Interaction Rate (IR)	User Initiated Interactions' divided by 'Served Impressions'
Click-through Rate (CTR)	Frequency of Click-throughs as a percentage of served impressions. 'Clicks' divided by 'Impressions'.
Dwell Rate	The ratio between the number of times an impression was dwelled upon (all instances where the users engaged with impressions), and the number of Served Impressions.
Dwell Duration (Seconds)	The average amount of time users intentionally spent engaging with an ad. The metric sums the following user actions: Amount of time the mouse was over an ad, user-initiated video duration, user-initiated expansion duration, and any other user-initiated Custom Interaction duration. Unintentional dwell instances, lasting less than one second, are excluded.
Avg. Video Duration	The average duration the video was played, including user and auto initiated videos (in seconds).
Started Rate	The number of times the video started out of video's served Impressions
50% Played Rate	The number of videos that played over 50% of their total video length divided by 'Video Started'.
Fully Played Rate	The number of videos that were fully played divided by video that started
Total Expansion Rate	Total expansions divided by served impressions. Including Auto-initiated expansions
Impressions with any Panel Expansion Rate	The number of impressions with at least one panel expansion.
Avg. Expansion Duration	The average time a panel was expanded, including user and auto initiated expansions
Rich Media Ads	All Eyebalster's formats excluding standard banner, wallpaper and window ads
